COMPOUND BOW

The F-31 fuels bowfishing trips for archers of all sizes with a 31" draw and zero let-off cams. The 30" axle-to-axle platform, 8" brace height, and 25–40 lb. adjustable limbs provide a clean release even when snap shooting. The deep-well cam grooves keep the string from derailing when shooting at odd angles and quick-draw scenarios. The F-31 features an anti-slip grip, perfect for wet environments, and stays steadfast in the hand under any condition. Get wreckin' with the F-31.

- High-quality Gordon Glass limbs
- Corrosion-resistant stainless steel hardware
- Anti-slip grip
- 31" draw length with zero let-off cams
- 25–40 lb. adjustable limbs (6.5 turns max out on bow)
- Deep-well cam grooves keep the string from derailing
- Finger Savers included
- Bow weighs 4 lbs.

BOWFISHING RECURVES

REFRACTR BLS™ BOWFISHING LASER SIGHT

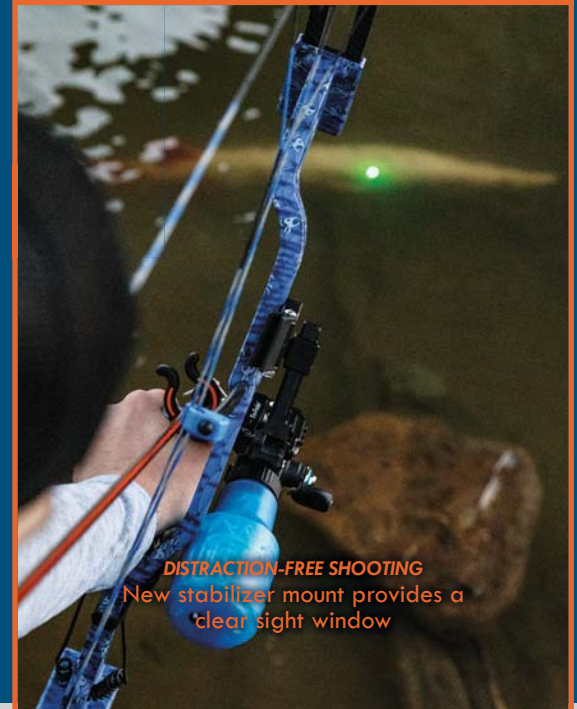

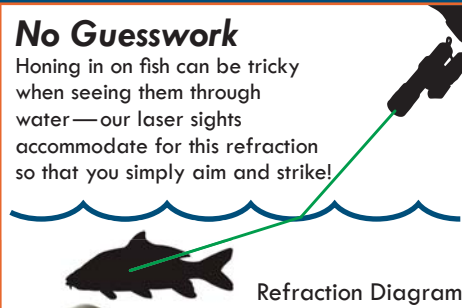

Our patented laser sight technology takes aim like never before! The all-new RefractR BLS™ is the most versatile and dependable model ever built. Hardware is included for both the sight and stabilizer mounting options. The high-power laser eliminates refraction to deliver superior accuracy.

- Sight & stabilizer mounts included
- Waterproof 5mW green laser with pressure switch activation
- Aluminum construction
- Stainless steel hardware
- CR123A 3V battery included
- Patented technology (#8,464,700)

RefractR BLS | #81483
Repl. Battery (CR123A) | #13046

No Guesswork

Honing in on fish can be tricky when seeing them through water—our laser sights accommodate for this refraction so that you simply aim and strike!

Powerful 5mW Green Laser

Strong enough to shine into the deepest waters, these green lasers will account for refraction and easily mark your target

patent #8,464,700

Sealed touch-pad & pressure-switch connection

BOWFISHING LASER SIGHT

SPLASHLIGHT™ BOWFISHING LIGHT SYSTEM

The powerful Splashlight will not only get you to your destination, it will also light up the water with a touch of the pressure switch—exposing game lurking in dark or murky water. The convertible end-cap allows for a quick change from a bow-mount light to a hand-held flashlight making it the only light you'll need on your adventure.

- Powerful 500 lumens
- AC/DC rechargeable
- Easily converts from bow mount to hand-held use
- Includes light, two rechargeable batteries and charger, A/C adapter, D/C adapter, remote pressure switch, threaded bow adapter cap and end cap switch (for hand-held use)

Splashlight | #60790

Repl. Battery | #81063

Powerful white LED

Threaded Bow Adapter

Easily converts from bow mount to hand-held use with included tail cap

Dual-stage remote pressure switch

Power for Hours

The Splashlight comes with two (2) powerful and long-lasting lithium batteries that are rechargeable.

BOWFISHING LIGHT SYSTEM

WINCH PRO™ BOWFISHING REEL

Every inch of the Winch Pro was built with bowfishing in mind—from the aluminum construction to the stainless steel ball bearings. Take to the water with confidence!

- 4:1 gear ratio for fast retrieval
- Built-in arrow quiver—universal fit
- 100% aluminum adjustable mounting brackets
- Anti-reverse bearings
- 25 yards of 250# braided line
- RH only

RH Winch Pro™ Reel | #81397

Built-In Arrow Quiver

Extended quiver bracket accommodates arrow storage across a wider range of bows.

Perfectly Suited for the BLS

The RefractR Bowfishing Laser Sight includes hardware that allows it to be equipped together.

One-Handed Control

Fish retrieval is crazy easy thanks to the fighting brake and smooth ball-bearing crank system.

High-Strength Braided Line

The bottle comes loaded with 25 yards of 250# retrieval line so go ahead and take that long shot.

Developed in Partnership with Cajun Bowfishing

HYDRO™ BOWFISHING LINE

Night or day, our high visibility Hydro™ Bowfishing Line resists frays and breakage to land the lunkers.

- 25 yards of high visibility white line
